BULB CROWERS PRICES BROKEN

The Holland Bulb Growers iron clad prices are at last broken. We now offer in this preliminary price list, fall bulbs of first quality at special import prices which represent considerable saving to you compared with prices which Dutch growers were asking only a few weeks ago. Our list includes cost, plus freight, insurance and other expenses usually included in consular invoices, duties, harbor and transfer charges, and we have added just enough to cover insurance, risk and a small profit. These expenses we have estimated as closely as possible, based on the present duty and probably freight charges. If the duty is increased between now and the time of shipment, prices will have to be revised accordingly. But there is a possibility of the ocean freights being considerably lower than they are at present. In such case, we will give you the lower rates.

BEST STOCK AT LOWEST PRICES

Furthermore, you will be assured of securing the best stock obtainable. Our long and satisfactory connections with some of the oldest and most reliable bulb growers in Holland insure our receiving not only first-class bulbs, but also the most favorable prices. You may be sure that if there is any change in prices, we will give you the benefit, because we are on the ground floor in the bulb business and can, without doubt, meet any prices for corresponding quality of stock. For this reason and many others, we urge every florist and bulb dealer to take advantage of this special offer immediately, for we are convinced that here is an opportunity for you to secure your fall bulbs more advantageously than if you were to place your order with any Holland bulb concern.

SEND ORDERS PROMPTLY

To take advantage of the prices, it will be necessary for you to send your orders immediately, so that we can forward all our orders to our growers as soon as possible, to allow them time to arrange for shipment in due season. Bulbs are packed as follows: Hyacinths, 100 per bag. Tulips and Narcissus 250 to 500. Crocus 500 to 1000. In quantities less than 250 of any variety of Tulips, Narcissus and Crocus or less than 100 of any one variety of Hyacinths, add 25c., per hundred to the price quoted herein. These prices are subject to immediate acceptance and withdrawal without notice and all orders are subject to our confirmation on the receipt of same. Terms: 2% 10 days from date of invoice. Net 60 days.

ORDER FLOWER SEEDS NOW

In this circular you will also find a list of Perennial and other flower seeds. Remember we are specialists in flower seeds of all kinds. The list given here is only a partial one of what we offer in this line. We shall be glad to quote on anything that is not shown here upon request.

Better make up your order at once for your fall requirements of bulbs, as well as flower seeds and plants.

MISCELLANEOUS BULBS FOR FORCING

NARCISSUS

Paper White Grandiflorus

Superior in every way to the ordinary Paper White. Very popular for forcing. Can be brought into flower in about 30 to 40 days. Will do well in ordinary house temperature and with no special care. For growing in dishes in pebbles and water they are equal to Chinese Lilies. Flowers are large, pure white and possess a pleasing fragrance.

At the time this goes to press, the prices of all French grown bulbs are still uncertain. Through our earnest efforts we expect a radical and fair readjustment of the exorbitant prices now being asked. It is certain, however, that there will not be an over supply of Paper Whites and we strongly urge our customers to place their orders with us at once for their requirements. These orders will greatly aid us in obtaining sufficient stock for all our friends at prices which, you may be sure, will be the lowest obtainable. We are in position to obtain as favorable terms from French growers as anyone in this country. As soon as prices are fixed you will be notified.

CALLA LILIES Dry Bulbs

Superior for forcing. Our bulbs are thoroughly ripened and come direct from one of the largest growers in the world.

We have a very select stock of bulbs, 1½ to 1¾ inches which we offer at \$2.50 per dozen or \$18.00 per hundred. Mammoth bulbs, 1¾ to 2 inches, dozen, \$2.75 100 \$20.00.

FREESIA PURITY

This variety has taken the place of Freesia Refracta Alba and is far superior to it. These bulbs can easily be brought into bloom for Christmas by early planting and always find ready sale. First size, ½ to ¾ per dozen, 40 cents; per 100, \$1.60; 1000, \$12.50. Extra choice, ¾ to ¾ per dozen, 60 cents; per 100, \$2.25; per 1000, \$20.00.

LILUM HARRISII

Invaluable for florists. Can be forced into bloom by Christmas. Our stock comes direct from one of the best growers in Bermuda, to whom we pay special prices to secure extra good bulbs, well grown, thoroughly ripened, carefully packed. Per dozen, \$3.50; per 100, \$23.00.

LILUM FORMOSUM

This is a splendid pure white, free flowering Lily of the Longiflorum type, imported by us from the Island of Formosa. The Formosum can be forced into bloom earlier than any other Lily of its type except Harrisii, for which it is a good substitute. 7 to 9-inch, per dozen, \$3.00; per 100, \$20.00. 8 to 10-inch, per dozen, \$4.00, per 100, \$28.00.

LILUM GIGANTEUM -- Blue Stem

The best of the Japan Lilies. A little later than the other varieties but hardier and freer blooming. Bulbs can be put in cold storage and taken out as needed during the Winter and Spring, or may be planted at once the same as Formosum.

Size	Per doz	Per 100
7 to 9 inch. Extra fine, very popular, original case contains about 300 bulbs.	\$2.00	\$15.00
8 to 10 inch. For use where large number of blossoms per stalk is desired.		
Original case contains about 250 bulbs	3.25	22.00

LILUM CANDIDUM

This variety is sometimes called the Annunciation Lily. Good for forcing, also used for outdoor planting. Its snowy white flowers are borne aloft by long, slender stems. Unsurpassed in stateliness and beauty for outdoor culture. Supply very scarce, we are booking orders at open prices and preference will be given to early orders. Prices to be named as soon as they are fixed by growers.
